

Thematic Area 2.

Elites' attitudes towards the EU and multilevel career patterns (12 hours)

A block of lectures (Prof. L. Verzichelli) focuses the recent dynamics of political representation in Europe, paying attention to the increasing relevance of EU-related issue in the political action at the domestic and sub-national level.

Empirical evidences and insights from the theoretical literature concerning the development of a multi-level pattern of political representation is discussed in a seminar (Prof. L. Verzichelli) and in the laboratory focused on data about the attitudes of MPs and economic elites in Europe (Prof. L. Verzichelli & Dr. S. Cresti).
