

The programme of the **Tutorial seminar 2016**

Analysing the political discourse about the EU through the social media

24/3 Experiencing political discourse about Europe in real-time through the social media (*slides circulated & preliminary tasks assigned*)

7/4 The analysis of the Twittersphere and the elaboration of a specific codebook for the EU-related issues (*organization of working groups and clarification of the research design*)

22/4 Checking the state of the art of data collection on political leaders within a sample of Member States and the EU institutions (the European Council, the Commission, the European Parliament)

5/5 How to perform the political discourse analysis using a computer assisted textual analysis software package (*examples from our own original data bases*)

27/5 Discussing the final reports draft prepared by working groups
